

System Safety Society MEMBERSHIP APPLICATION FORM

INSTRUCTIONS FOR MEMBERSHIP APPLICATION FORM: The System Safety Society Constitution and By Laws establish three **professional membership grades** and four **administrative categories**. The following three pages provide the necessary guidelines, checklists and forms for new or current Society members to submit the necessary data to apply for membership in the System Safety Society or apply for reclassification/upgrading. Since the required fees and extent of data will vary with the specific grade or category selected by the applicant, a careful study of the entire form is essential prior to completion and submittal.

Step 1: Select Grade or Category: A summary of the various individual grades and categories is provided below to assist in determining which grade or category should be selected, as eligibility is based on current qualification status. The qualifying points referred to below are defined in the checklists described on subsequent pages of this form.

CRITERIA FOR PROFESSIONAL MEMBERSHIP GRADES

MEMBER: One qualified by a combination of education, experience, and contributing achievement to perform effectively in at least one of the System Safety function areas as defined on the application form.

SENIOR MEMBER: One who can demonstrate a high level of professional competence through educational, experience, and professional achievement areas. Normally, at least six (6) years of qualifying experience are required in three (3) of the six System Safety functional areas. In addition, evidence is required demonstrating significant achievement in the System Safety field, which has contributed to the professional development of the applicant. **Must have been a Member for four years.**

FELLOW MEMBER: To qualify for the highest grade of professional recognition that may be granted by the Society, the applicant must demonstrate (in addition to qualifying for the Senior Member grade) outstanding contributions to the Society and the System Safety profession. **Must have been a Senior Member for five years.**

CRITERIA FOR QUALIFYING POINTS

Minimum of **6 points** combined from the Educational, Experience, and Contributing Achievement Factors.

Minimum of 35 points, of which at least 12 points must be from the combined Educational, Experience, and Contributing Achievement areas, and at least 10 points from the Professional Achievement area.

Minimum of five (5) years of Society Senior Membership; minimum of 70 points, with at least 35 points qualifying under the Senior Member criteria and the additional 35 points from the Contributing Achievement Factors.

CRITERIA FOR ADMINISTRATIVE CATEGORIES

AFFILIATE: An applicant who is currently unable to qualify for the Student or a Professional Member grade, or one who elects to remain in this category by choice or default (i.e., fails to submit a properly completed reclassification form).

STUDENT: An individual enrolled as a full-time student working toward a degree at an accredited college or university in a field related to System Safety activities. To qualify, a current copy of the student's course schedule and statement of professional goals must accompany this application and each subsequent annual dues payment involving the reduced Student dues.

The other two individual membership categories, **Emeritus** and **Honorary**, are not selected by means of this form, but by administrative action of the Society, when appropriate.

Step 2: Complete Form/Checklists: For those applying for a Professional Membership grade, both pages of the Application Form and the Qualification Evaluation Checklist (with necessary supporting documentation to verify claimed points) must be completed. For those applying for an administrative category, only the first page of the Application Form need be completed.

Step 3: Determine Fees: When required, a non-refundable Reclassification Fee must be submitted with the completed Application Form. This fee is based on the Grade being requested:

<i>Student, Affiliate</i>	No fee required
<i>Member</i>	\$5.00 – each submittal
<i>Senior Member</i>	\$35.00 – initial submittal
<i>Fellow Member</i>	\$45.00 – initial submittal

These fees are needed to help defray added administrative costs involved with the reclassification process and preparation of membership rosters. For those applying for either the Senior or Fellow Member grade, the reclassification fee includes a special membership plaque. Should the initial submittal be found invalid for the requested grade, the next highest acceptable grade or category will be assigned; any subsequent submittal for upgrading to the initially requested grade requires only a \$10 re-submittal fee.

Step 4: Submit Forms and Payment: All fees owed must be paid in U.S. dollars by check, credit card or money order, made payable to the System Safety Society. Applications received without appropriate fees may be returned. Send completed application and necessary supplemental data with payment to: **SYSTEM SAFETY SOCIETY**, P.O. Box 70, Unionville, VA 22567-0070.

QUALIFYING EXPERIENCE IN THE VARIOUS SYSTEM SAFETY FUNCTIONAL AREAS
Indicate number of years of full-time and part-time (more than 50%) of your professional experience claimed in each of the following areas (attach supplemental sheets and back-up data as necessary):

System Safety Functional Areas	Total Years of Experience		Employer (name & address)	Your Title/Function	From/To Dates
	Full-Time	Part-Time			
SYSTEM SAFETY MANAGEMENT Pertains to the definition and/or implementation of system safety programs for complex projects.					
SYSTEM SAFETY ANALYSIS The process of conducting studies, investigations, evaluations, explorations, reviews, audits, tests and assessments to identify hazards and recommend remedial measures for their elimination or control.					
SYSTEM SAFETY DESIGN Pertains to the establishment of safety design criteria and requirements for products, systems, sub-systems and components, and for their development, manufacture, test and use.					
SYSTEM SAFETY RESEARCH The systematic pursuit of advances in system safety basic knowledge and technology.					
SYSTEM SAFETY OPERATIONS Involves the evaluation of operational facility utilization for hazard reduction within the operational environment.					
MISHAP INVESTIGATION Concerns the investigation of mishaps and the gathering and analysis of data and information on mishaps to determine causes and corrective actions.					

- I am applying for Senior Member (I have been a Member for 4 years).
 I am applying for Fellow Member (I have been a Senior Member for 5 years).

COMPLETE THIS PAGE ONLY IF APPLYING FOR MEMBER, SENIOR MEMBER OR FELLOW CLASSIFICATION

For those making application for reclassification into a professional membership grade, the checklists provided must be submitted together with supporting documentation and your completed application form. Study the criteria below to determine the grade for which you qualify and wish to apply. Next, review the checklist and the factors for which you qualify. In the "Points Claimed" blanks in column two, indicate the number of points you are claiming for each factor you have selected. Do not mark in the third column, as this is reserved for the reviewer's use only.

SUPPORTING DOCUMENT GUIDELINES: It is the applicant's responsibility to submit all necessary supporting documentation on factors claimed for points. In general, such documentation must be sufficient to provide the reviewing committee a clear basis for evaluating how many points, if any, should be awarded for each factor selected. Where data is not included as part of the application form, attachments must be provided and clearly keyed as:

EDUCATIONAL FACTORS: Copies of transcripts, diplomas or certificates you have earned.

EXPERIENCE FACTORS: Full description of functional responsibilities for each qualifying position held, including employer, immediate supervisor, and dates of employment. Copies of applicant's official job descriptions should be submitted when available.

ACHIEVEMENT AREAS: Full description of each claimed factor, with copies of supporting certificates, programs, copies of journal extracts covering papers presented; letterheads, business cards, and newsletters. Letters from employers or committee chairpeople that verify professional services claimed, etc. Failure to provide sufficient documentation may result in being denied claimed points. Be sure each claimed factor is backed up with a suitable reference or verification.

EDUCATIONAL FACTORS	Points:	Max. Allowed	Claimed	Awarded
1) Doctorate degree in Engineering, an applied science or system safety		6*		
2) Master's degree in Engineering, an applied science or system safety		5*		
3) Bachelor's degree in Engineering, an applied science or system safety		4*		
4) Associate degree in an applied science or technology field		2*		
5) A degree in a non-technical area		3**		
6) College-level educational units not resulting in a degree		3**		
7) Completion of non-credit courses in system safety related areas		3**		
* Credit allowed only for highest degree attained.
